

## **Elephant Talk Announces CEO Interview Available Online**

ORANGE, Calif., June 12, 2008 – (PRIME NEWSWIRE) – Elephant Talk Communications, Inc. (OTCBB: ETAK), an international telecom and multimedia content distributor, today announced that CEO Steven van der Velden has been interviewed on RedChip Internet TV, a business-oriented online interview program.

The webcast interview, which was conducted June 5, 2008 in conjunction with the company's presentation at RedChip's Small-Cap Investor Conference in San Francisco, is accessible at [www.redchip.com](http://www.redchip.com) by following links to the RedChip San Francisco Conference Webcast Presentations.

The interview highlighted the company's unique status as a cross-border telecom system integrator and its positioning as a Mobile Virtual Network Enabler (MVNE), assisting global mobile operators in offering sophisticated telecom services to their base of virtual network operators around the world.

Elephant Talk's entire presentation to the analysts and brokers and individual investor's at the conference -- including PowerPoint slides -- can also be accessed online via RedChip's Web site, [www.redchip.com](http://www.redchip.com).

### **About Elephant Talk Communications, Inc.**

Elephant Talk Communications is positioning itself as an international telecom operator and enabler/systems integrator to the multimedia industry by facilitating the distribution of all forms of content as well as mobile and fixed telecom services to global telecommunications consumers. The company provides traditional telecom services, media streaming, and distribution services primarily to the business-to-business (B2B) community within the telecommunications market where it has a presence. The company's global footprint as a fully licensed carrier, supported by its propriety IN (Intelligent Network) and Billing/CRM (Client Relationship Management) Systems, has been designed to offer cutting-edge solutions to the increasingly competitive global multimedia industry. Elephant Talk's telecommunications platform eliminates the usual limitations caused by national borders, networks, devices or media and, therefore, enables its B2B customers to operate as independent telecom and multimedia distribution organizations. Elephant Talk is also a system integrator and developer for mobile telecom and content distribution solutions; and, as a Mobile Virtual Network Enabler (MVNE), the company has positioned itself as the premier outsourcing partner for both Mobile Network Operators (MNO's) as well as for Mobile Virtual Network Operators (MVNO's). At the same time, ETAK assists its MNO partners to more efficiently provide a broad range of sophisticated services to their own existing base of MVNO's. ETAK is positioning itself as the preferred MVNE partner of the larger, global Mobile Operators and currently operates sophisticated networks in over a dozen markets in Europe, Asia Pacific, and the Middle East.
